

**JML Publishing** is a full service internet consulting and development company offering:

- Web Site Design and Hosting
- e-Commerce Applications
- Graphic Design
- Content Management Solutions

We'll sit down with you and help determine your needs, assist in planning your strategy, and aid you in the design and implementation of your web site.

Let us help you take the guess-work out of getting your business online.

#### News

.....  
We are currently the slideshow provider for Kirsten Shultz Photography. See an example of her work by [clicking here](#)

#### New Sites:

[Blaine County Appraisal](#)  
[Sun Valley Air](#)

#### Professional Design:

It is now more critical than ever that your website produce results for you. This means that your website design must look professional, be easy-to-navigate and search engine friendly.

#### Data Driven Real Estate Websites:

We can integrate the Flex MLS data into your site to ensure your listings are current and up to date. We also provide the tools that allow you to update the other content on your site in an easy, timely manner. No more waiting to get your site updated. You do it at your convenience when you need it done.

#### Dependable Hosting:

Our affordable plans include all the basics, plus the flexibility to customize with options tailored to your needs.

Our small size allows us to give you an unprecedented level of service within the industry. When you call us, you will talk to a support person and have your questions answered immediately.

#### Reasons You Should Have a Web Site:

1. Your customers are using the web to make purchasing decisions.
  2. Your competition is on the web.
  3. A web site makes it easy for people to refer new customers to you.
  4. Offer your services 7 days a week, 24 hours a day.
- ... more reasons
